

OBD2 SHIELD

INSTALLS IN 1 MIN. | PROTECT YOUR LOT | SELL IN FINANCE

With the advancements in Automotive Technology, one would think vehicle theft would continue to decline in the U.S. However, the exact opposite is the truth. Thieves continue to exploit these advancements and now have more ways to steal vehicles than they did 10 years ago. A common vulnerability is the ability to disable the cars factory alarm and reprogram a new key via the OBD2 Port. To avoid this from happening to your vehicles, start securing them today by using an OBD2 Shield!

28% Increase in vehicle theft since 2019. Resulting in over 1 million thefts in the United States in 2023.
